

## 2017-2018 Class Offerings

### **Preschool Classes:**

#### **MORNING GLORY CLASS:** Tuesday and Thursday, 8:45-11:45am

For children 2 ½ up to 5 years old.

The Morning Glory class curriculum revolves around experiential learning and introduction to real-life events and understandings. We start each school year with curriculum that introduces the children to materials and routines and then extends to connect children with one another and the world around them. The curriculum infuses learning into daily activities and routines; all while nurturing self-awareness, expressive language, problem-solving, and self-advocacy. Children will participate in circle time, art, sensory, snack, dramatic play, movement, introductory literacy and math activities in an intentionally- organized environment prepared expressly for the unique needs of the group. Potty training strongly preferred but not required (\$30 monthly diaper fee may apply).

#### **BUTTERFLY CLASS:** Monday, Wednesday, Friday, 8:45-11:45am

For children 3 up to turning 6 years old.

The Butterfly class provides a wide-range of developmental and cognitive opportunities with two overarching themes—social communication and problem-solving. While the children have ongoing opportunities for art, dramatic play, sensory and outdoor activities, handwriting, movement, and math experiences, we facilitate cooperation, pro-social interactions, and enable (through emotional, physical, and verbal support) interactive problem-solving between children. We set up the space on a daily basis to directly reflect interests and abilities expressed by the children on prior school days. Each day consists of the same routine that provides circle time, story time, snack, indoor/outdoor format, classroom socializing and play--but no two days ever look the same! Potty training required.

#### **EXPLORERS CLASS:** Monday, Wednesday, Friday 8:45am-2:15pm

For children with birthdates May 30, 2012 -June 1, 2013.

This class uses literature to create inquiry-based projects and learning that cover all areas of development—socialization, problem-solving, literacy, math, social studies, language development, science and writing. This well-researched, proven method of inquiry-based education provides plenty of opportunity for Kindergarten preparedness. A portion of the day is spent in a mixed-age setting followed by Explorer-exclusive investigations, activities, and project work. With the smaller class of up to 10 children, children are able to receive a highly-responsive, individualized early education.

#### **Parent/Toddler Class:** Wednesdays 9:30-11:00am

**Registration fee:** \$50 annually (unlimited number of sessions)

**Tuition:** \$125 per 8-week session--Multiple Session Discounts!

These classes expose children to social interaction, hands-on art and sensory activities, music/rhythm, and gross motor movement. An adult must attend the class with the child.

Children are not required to be potty-trained. For children 18-36 months old. These classes are offered in **8-week** sessions.
